right now about that range. We believe that in the Majestic and Stewart Ranges we have the finest combination that it would be possible to get. You have all heard of the great Majestic, without exception the very BEST that money can buy. You can hit the top with a sledge hammer but you can't break it for it is constructed of polished MALLEABLE STEEL.

No cracks or crevices around the oven, for the jacket is made of a new metal, called charcoal iron, and can be riveted so tightly that it is absolutely impossible for heat to escape from around the oven. We have handled the Majestic for twentynine years and not one has gone back on us.

Prices from \$58.00 to \$65.00

We also carry the Stewart Range, the best medium priced range ou the market.

Prices from \$28.00 to \$50.00.
